2. Hazard identification of the product

#### GHS Classification;

| GHS Glassification,   |                |  |  |
|---|----------------|--|--|
| Item  | Category       | Hazard   |  |
| Flammability  | 3              | Flammable liquid and vapor                               |  |
| Acute Toxicity (mouth)                                      | Not classified | Not applicable   |  |
| Acute Toxicity (skin)                                       | Not classified | Not applicable   |  |
| Acute Toxicity (inhalation)                                 | Not classified | Not applicable   |  |
| Acute Toxicity (ingestion)                                  | Not classified | Not applicable   |  |
| Skin corrosion/irritation                                   | Not classified | Not applicable   |  |
| Eye damage/irritation                                       | Not classified | Not applicable   |  |
| Sensitization (respiratory)                                 | Not classified | Not applicable   |  |
| Sensitization (skin)  | Not classified | Not applicable   |  |
| Germ toxicity   | Not classified | Not applicable   |  |
| Specific target organ systemic toxicity (single exposure)   | 1              | central nerve system, kidneys, liver, respiratory system |  |
|   | 2              | central nerve system                                     |  |
|   | 3              | narcotic effects, respiratory tract irritation           |  |
| Specific target organ systemic Toxicity (repeated exposure) | 1              | central nerve system, lung, respiratory system           |  |
|   | 2              | Not applicable   |  |
| Aspiration hazard   | Not classified | Not applicable   |  |
| Harmfulness to aquatic Environment (acute)                  | 3              | Harmful to aquatic life.                                 |  |
| Harmfulness to aquatic Environment<br>(long term effect)    | 4              | May cause harm to aquatic life with long lasting effects |  |
| Carcinogenicity   | Not classified | Not applicable   |  |

| Reproductive Toxicity | Not classified | Not applicable |
|-----------------------|----------------|----------------|
| Organic Peroxide      | Not classified | Not applicable |

Safety Phrases:

S23: Do not breathe vapor/spray.

S45: In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).

S51: Use only in well-ventilated areas.

S61: Avoid release to the environment. Refer to special instructions/Safety data sheets.

| Overview        | NOTICE: Reports have associated repeated and prolonged occupational<br>overexposure to solvents with permanent brain and nervous system damage.<br>Intentional misuse by deliberately concentrating and inhaling the contents may be<br>harmful or fatal. Avoid contact with eyes, skin and clothing. |  |  |  |  |
|-----------------|---|--|--|--|--|
| Inhalation      | Harmful if inhaled. Causes nose and throat irritation. Vapors may affect the brain or nervous system causing dizziness, headache or nausea.   |  |  |  |  |
| Eyes            | Causes severe eye irritation. Avoid contact with eyes.  |  |  |  |  |
| Skin            | Causes skin irritation. May be harmful if absorbed through the skin.  |  |  |  |  |
| Ingestion       | Harmful if swallowed. May cause abdominal pain, nausea, vomiting, diarrhea, or drowsiness.  |  |  |  |  |
| Chronic effects | Possible cancer hazard. Contains an ingredient which may cause cancer based on<br>animal data (See Section 2 and Section 15 for each ingredient). Risk of cancer<br>depends on duration and level of exposure.  |  |  |  |  |
| HMIS Rating     | Health: 2* Flammability: 3 Reactivity: 0 PPE: X   |  |  |  |  |

| 3. Composition/information on ingredients |              |          |  |  |
|---|--------------|----------|--|--|
| Ingredient                                | CAS No.      | Percent  |  |  |
| 1,2,4–Trimethyl benzene                   | 0000095-63-6 | 1.0 – 10 |  |  |
| Benzene, ethyl-                           | 0000100-41-4 | 1.0 – 10 |  |  |
| Propylene glycol monomethyl ether         | 0000107-98-2 | 1.0 – 10 |  |  |
| 1,3,5–Trimethylbenzene                    | 0000108-67-8 | 1.0 – 10 |  |  |
| Xylenes (o–, m–, p– isomers)              | 0001330-20-7 | 10 – 25  |  |  |
| Kaolin                                    | 0001332-58-7 | 1.0 – 10 |  |  |
| Barium sulfate                            | 0007727-43-7 | 25 – 50  |  |  |
| Titanium dioxide                          | 0013463-67-7 | 10 – 25  |  |  |
| Polymer of epoxy resin and bisphenol A    | 0025036-25-3 | 10 – 25  |  |  |
| Petroleum naphtha, light aromatic         | 0064742-95-6 | 1.0 – 10 |  |  |

#### 4. First aid measures

| General    | Remove contaminated clothing and shoes. Get medical attention<br>immediately. Wash clothing before reuse. Thoroughly clean or destroy<br>contaminated shoes.  |
|------------|---|
| Inhalation | If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention immediately.  |
| Eyes       | In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention immediately.   |
| Skin       | In case of contact, immediately flush skin with soap and plenty of water. Get medical attention immediately.  |
| Ingestion  | If swallowed, immediately contact Poison Control Center at 1–800–854–6813. DO NOT induce vomiting unless instructed to do so by medical personnel. Never give anything by mouth to an unconscious person. |
|            | 5. Fire-fighting measures   |

| Lower Explosive Limit (LEL) | 1 (%vol in air) at Normal Atmospheric Temp and Pressure |
|-----------------------------|---|
| ERG Guide No.               | 128   |

| 6. Accidental release measures                             |   |  |
|--|---|--|
| Spill Response<br>Procedures                               | ELIMINATE ALL IGNITION SOURCES (no smoking, flares, sparks or flames in immediate area). Use only non-sparking equipment to handle spilled material and absorbent. Do not touch or walk through spilled material. Stop leak if you can do so without risk. Prevent entry into waterways, sewers, basements or confined areas. A vapor suppressing foam may be used to reduce vapors. Absorb or cover with dry earth, sand, or other non-combustible material and transfer to containers. Use non-sparking tools to collect absorbed material.                         |  |
| Public Safety  | CALL CHEMTREC at (800)–424–9300 for emergency response. Isolate spill or leak area immediately for at least 50 meters (150 feet) in all directions. Keep unauthorized personnel away. Stay upwind. Keep out of low areas. Ventilate closed spaces before entering. LARGE SPILLS: Consider initial downwind evacuation for at least 300 meters (1000 feet).  |  |
| ERG Guide No.  | 128   |  |
|  | 7. Handling and storage   |  |
| Storage Temperature<br>Handling and Storage<br>Precautions | Store between 40–100F (4–38C).<br>Keep away from heat, sparks and flame. Do not smoke. Extinguish all flames and<br>pilot lights, and turn off stoves, heaters, electric motors and other sources of ignition<br>during use and until all vapors are gone. Vapors may cause flash fire or ignite<br>explosively. Prevent build–up of vapors by opening all windows and doors to achieve<br>cross–ventilation. Avoid contact with eyes and clothing. Avoid prolonged or repeated<br>contact with skin. Close container after each use. Wash thoroughly after handling. |  |

#### 8. Exposure controls and personal protection

| CAS No.                      | Ingredient                  | Source       | Value   |  |
|------------------------------|-----------------------------|--------------|---|--|
| 0000095-63-6 1               | 1,2,4–Trimethyl benzene     | OSHA         | No Established Limit  |  |
|                              |                             | ACGIH        | No Established Limit  |  |

| Respiratory          | Select equipment to provide protection from the ingredients listed in Section 3 of this document. Ensure fresh air entry during application and drying. If you experience eye watering, headache or dizziness or if air monitoring demonstrates dust, vapor, or mist levels are above applicable limits, wear an appropriate, properly fitted respirator (NIOSH approved) during and after application. Follow respirator manufacturer's directions for respirator use. FOR USERS OF 3M RESPIRATORY PROTECTION ONLY: For information and assistance on 3M occupational health and safety products, call OH&ESD Technical Service toll free in U.S.A. 1–800–243–4630, in Canada call 1–800–267–4414. Please do not contact these numbers regarding other manufacturer's respiratory protection products. 3M does not endorse the accuracy of the information contained in this Material Safety Data Sheet. |
|----------------------|---|
| Eyes                 | Avoid contact with eyes. Protective equipment should be selected to provide protection from exposure to the chemicals listed in Section 3 of this document. Depending on the site–specific conditions of use, safety glasses, chemical goggles, and/or head and face protection may be required to prevent contact. The equipment must be thoroughly cleaned, or discarded after each use.  |
| Skin                 | Protective equipment should be selected to provide protection from exposure to the chemicals listed in Section 3 of this document. Depending on the site–specific conditions of use, protective gloves, apron, boots, head and face protection may be required to prevent contact. The equipment must be thoroughly cleaned, or discarded after each use.   |
| Engineering Controls | Prevent build-up of vapors by opening all windows and doors to achieve<br>cross-ventilation.  |
| Other Work Practices | Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure. Use good personal hygiene practices. Wash hands before eating, drinking, using toilet facilities, etc. Promptly remove soiled clothing and wash clothing thoroughly before reuse. Shower after work using plenty of soap and water.  |

| 9. Physical and chemical properties |  |  |
|-------------------------------------|--|--|
| Physical State                      | Liquid Coloured  |  |
| рН                                  | No Established Limit   |  |
| Specific Gravity                    | 1.55   |  |
| Boiling Point F                     | 210  |  |
| Vapor Density                       | Heavier than air   |  |
| VOC %                               | Refer to the Technical Data Sheet or label where information is available. |  |
| Evaporation Rate                    | Slower than ether  |  |
| F                                   |  |  |
| 10. Stability and reactivity        |  |  |

| General                   | This product is stable and hazardous polymerization will not occur. Not sensitive to<br>mechanical impact. Excessive heat and fumes generation can occur if improperly<br>handled. |
|---------------------------|--|
| Incompatible Materials    | Strong oxidizing agents.   |
| Hazardous<br>Decompostion | May produce hazardous fumes when heated to decomposition as in welding. Fumes may produce Carbon Dioxide and Carbon Monoxide.  |

| 11. Toxicological information                         |                                 |                                     |                                       |

General

NOTICE: Reports have associated repeated and prolonged occupational overexposure to solvents with permanent brain and nervous system damage. Intentional misuse by deliberately concentrating and inhaling the contents may be harmful or fatal. No additional information provided for this product. See Sections 8 and 11 for chemical specific data.

12. Ecological information

#### Not Defined

No additional information provided for this product. See Sections 8 and 11 for chemical specific data.

13. Disposal considerations

Dispose of in accordance with local, state and federal regulations. (Also reference RCRA information in Section 15 if listed).
