

## Epoxy Primer/Finish

**PRODUCT DESCRIPTION** A hard wearing, surface tolerant, two pack epoxy primer/finish.

**INTENDED USES** As an anticorrosive primer/finish for decks, deck fittings and cargo holds.  
For use at On Board Maintenance only.

**PRODUCT INFORMATION**

<b>Colour</b>	ISA420-Finish Red, ISA430-Finish Green, ISA450-Finish Grey
<b>Finish/Sheen</b>	Matt
<b>Part B (Curing Agent)</b>	ISA426
<b>Volume Solids</b>	65% ±2% (ISO 3233:1998)
<b>Mix Ratio</b>	5 volume(s) Part A to 1 volume(s) Part B
<b>Typical Film Thickness</b>	75 microns dry (115 microns wet)
<b>Theoretical Coverage</b>	8.67 m <sup>2</sup> /litre at 75 microns dft, allow appropriate loss factors
<b>Method of Application</b>	Brush, Roller
<b>Flash Point (Typical)</b>	Part A 35°C; Part B 25°C; Mixed 28°C
<b>Induction Period</b>	Not required

<b>Drying Information</b>	5°C	10°C	25°C	35°C
Touch Dry [ISO 9117/3:2010]	6 hrs	4 hrs	2 hrs	30 mins
Hard Dry [ISO 9117-1:2009]	8 hrs	6 hrs	4 hrs	90 mins
Pot Life	5 hrs	3 hrs	2 hrs	60 mins

<b>Overcoating Data - see limitations</b>	<b>Substrate Temperature</b>							
	5°C		10°C		25°C		35°C	
<b>Overcoated By</b>	Min	Max	Min	Max	Min	Max	Min	Max
Intergard 740	12 hrs	7 days	8 hrs	7 days	4 hrs	7 days	90 mins	7 days
Intersheen 579	12 hrs	24 hrs	8 hrs	24 hrs	4 hrs	24 hrs	90 mins	24 hrs
Interstores Epoxy Primer	12 hrs	28 days	8 hrs	28 days	4 hrs	28 days	90 mins	28 days
Interstores Polyurethane	12 hrs	7 days	8 hrs	7 days	4 hrs	7 days	90 mins	3 days
Interthane 990	12 hrs	7 days	8 hrs	7 days	4 hrs	7 days	90 mins	3 days

**REGULATORY DATA**

<b>VOC</b>	326 g/lit as supplied (EPA Method 24) 225 g/kg of liquid paint as supplied. EU Solvent Emissions Directive (Council Directive 1999/13/EC) 327 g/lit Chinese National Standard GB23985
------------	---

**Note:** VOC values are typical and are provided for guidance purposes only. These may be subject to variation depending on factors such as differences in colour and normal manufacturing tolerances.

## Epoxy Primer/Finish

### CERTIFICATION

When used as part of an approved scheme, this product has the following certification:

- Food Contact - Carriage of Grain (NOHH)
- Fire Resistance - Marine Equipment Directive compliant
- Fire Resistance - Surface Spread of Flame (Exova Warringtonfire)
- Fire Resistance - Smoke & Toxicity (Exova Warringtonfire)

Consult your International Paint representative for details.

---

### SYSTEMS AND COMPATIBILITY

Consult your International Paint representative for the system best suited for the surfaces to be protected.

---

### SURFACE PREPARATIONS

Use in accordance with the standard Worldwide Marine Specifications.

All surfaces to be coated should be clean, dry and free from contamination.

High pressure fresh water wash or fresh water wash, as appropriate, and remove all oil or grease, soluble contaminants and other foreign matter in accordance with SSPC-SP1 solvent cleaning.

#### **OBM - Exposed steel and corrosion:**

Hand or power tool clean to a minimum St2 (ISO 8501-1:2007). Note, all scale must be removed and areas which cannot be prepared adequately by chipping or needle gun should be spot blasted to a minimum standard of Sa2 (ISO 8501-1:2007). Typically this would apply to C or D grade steel in this standard.

Interstores Epoxy Primer is suitable for overlap onto most aged coating systems. Loose or flaking coatings should be removed back to a firm edge and Interstores Epoxy Primer should be applied to overlap the existing coating by 2-3 centimetres (one inch). Glossy epoxies and polyurethanes may require abrasion.

#### **Intact Coatings:**

This product may be applied as a full coat over most generic types of paint that have been aged for at least 3 months. It is advisable that a small trial be carried out before applying a full coat over certain generic types. Consult International Paint for acceptable generic types and extent of surface preparation required. Accurate film thickness control is essential, particularly when overcoating existing systems.

Consult your International Paint representative for specific recommendations.

#### **NOTE**

**For use in Marine situations in North America, the following surface preparation standards can be used:**

**SSPC-SP10 in place of Sa2½ (ISO 8501-1:2007)**

**SSPC-SP6 in place of Sa2 (ISO 8501-1:2007)**

**SSPC-SP2 in place of St2 (ISO 8501-1:2007)**

## Epoxy Primer/Finish

### APPLICATION

<b>Mixing</b>	Material is supplied in 2 containers as a unit. Always mix a complete unit in the proportions supplied. (1) Agitate Base (Part A) with a power agitator. (2) Combine entire contents of Curing Agent (Part B) with Base (Part A) and mix thoroughly with power agitator.
<b>Thinner</b>	Thinning is not normally required. Consult the local representative for advice during application in extreme conditions. Do not thin more than allowed by local environmental legislation.
<b>Airless Spray</b>	Application by airless spray is not recommended.
<b>Conventional Spray</b>	Application by conventional spray is not recommended.
<b>Brush</b>	Recommended
<b>Roller</b>	Recommended
<b>Cleaner</b>	International GTA220/GTA822
<b>Work Stoppages and Cleanup</b>	Clean all equipment immediately after use with International GTA220/GTA822. Do not exceed pot life limitations. All surplus materials and empty containers should be disposed of in accordance with appropriate regional regulations/legislation.
<b>Welding</b>	In the event welding or flame cutting is performed on metal coated with this product, dust and fumes will be emitted which will require the use of appropriate personal protective equipment and adequate local exhaust ventilation. In North America do so in accordance with instruction in ANSI/ASC Z49.1 "Safety in Welding and Cutting."

### SAFETY

**All work involving the application and use of this product should be performed in compliance with all relevant national Health, Safety & Environmental standards and regulations.**

**Prior to use, obtain, consult and follow the Material Safety Data Sheet for this product concerning health and safety information. Read and follow all precautionary notices on the Material Safety Data Sheet and container labels. If you do not fully understand these warnings and instructions or if you can not strictly comply with them, do not use this product. Proper ventilation and protective measures must be provided during application and drying to keep solvent vapour concentrations within safe limits and to protect against toxic or oxygen deficient hazards. Take precautions to avoid skin and eye contact (ie. gloves, goggles, face masks, barrier creams etc.) Actual safety measures are dependant on application methods and work environment.**

#### **EMERGENCY CONTACT NUMBERS:**

## Epoxy Primer/Finish

### LIMITATIONS

Interstores Epoxy Primer is not suitable for use on immersed areas. Optimum performance is achieved when this coating is applied over St2 (ISO 8501-1:2007) prepared steel. In common with all epoxy based coatings Interstores Epoxy Primer will exhibit chalking of the film on UV exposure. Overcoating information is given for guidance only and is subject to regional variation depending upon local climate and environmental conditions. Consult your local International Paint representative for specific recommendations. Apply in good weather. Temperature of the surface to be coated must be at least 3°C above the dew point. For optimum application properties bring the material to 21-27°C, unless specifically instructed otherwise, prior to mixing and application. Unmixed material (in closed containers) should be maintained in protected storage in accordance with information given in the STORAGE Section of this data sheet. Technical and application data herein is for the purpose of establishing a general guideline of the coating application procedures. Test performance results were obtained in a controlled laboratory environment and International Paint makes no claim that the exhibited published test results, or any other tests, accurately represent results found in all field environments. As application, environmental and design factors can vary significantly, due care should be exercised in the selection, verification of performance and use of the coating.

UNIT SIZE	Unit Size	Part A		Part B	
		Vol	Pack	Vol	Pack
	20 lt	16.67 lt	20 lt	3.33 lt	5 lt
	5 US gal	4.17 US gal	5 US gal	0.83 US gal	1 US gal
