

Interline tank coating repair kit

Product Description

A one-coat universal repair solution for all major organic Interline cargo tank coatings (CTC). Designed as an easy to use onboard maintenance CTC repair product, while providing excellent cargo resistance, and compatible with AkzoNobel's flagship product, Interline 9001.

Key Features

One-coat repair

Wide temperature (10°C - 35°C) and humidity flexibility (up to 80%)

Fast return to service (32hrs at 23°C)

Versatile with strong chemical resistance

No mandatory post curing requirements (refer to Application Guide and Chemical Resistance Guide Note M for details)

Key Benefits

- Easy to use

- Flexible application with savings in time and costs
- Saves time and resources for repair jobs

- Lower cargo carriage downtime
- Minimal disruption to ship crew operations

- Compatible with Interline 9001, 994, 704
- Provides the same chemical resistance as the coating being repaired

- Saves time, energy and water resources
- Improves durability of repaired spots
- Provide better sustainability profile to users

Key Advantages

Fast application and return to service

Easy, one-coat brush application

Product Information

Colour TCA 100 - Grey (Part A), TCA 105 (Part B)

Surface preparation Sanding down followed by solvent wash (Refer to Application Guide)

Volume solids 94% ± 2% (ISO 3233:1998)

Typical film thickness 300 microns dry (319 microns wet)
One Coat

Hard dry 24 hours @ 25°C

Application temperature 10°C to 35°C

VOC 86g/lit (EPA Method 24)
EU Solvent Emissions Directive
(Council Directive 1999/13/EC)

Shelf life 12 months

Method of application Brush only (Onboard Maintenance use only)

Pack size 2 Litre after mixing

Convenient pick-up points.

Small pack size; Less wastage.
