Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Regulation (EU) No. 2015/830. - United Kingdom (UK)

# SAFETY DATA SHEET

Interthane 990 Yellow Part A

# SECTION 1: Identification of the substance/mixture and of the company/ undertaking

#### 1.1 Product identifier

: Interthane 990 Yellow Part A

Product name Product code

: PHB134

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

| Identified uses                               |        |  |
|---|--------|--|
| Professional application of coatings and inks |        |  |
| Uses advised against                          | Reason |  |
| All Other Uses                                |        |  |

#### **1.3 Details of the supplier of the safety data sheet**

| Notional contract                                    |                              |
|--|------------------------------|
| e-mail address of person<br>responsible for this SDS | : sdsfellinguk@akzonobel.com |
| NE10 0JY UK<br>Tel: +44 (0)191 469 6111              | Fax: +44 (0)191 438 3711     |
| Tyne and Wear  |                              |
| Gateshead  |                              |
| Felling  |                              |
| Stoneygate Lane                                      |                              |
| International Paint Ltd.                             |                              |
|  | -                            |

### National contact

#### 1.4 Emergency telephone number

| National advisory bod | y/Poison Centre (For use only by licensed medical professionals.) |
|-----------------------|---|
| Telephone number      | : +44 (0)844 892 0111   |
| <u>Supplier</u>       |   |
| Telephone number      | : +44 (0)191 469 6111 (24H)                                       |

#### **SECTION 2: Hazards identification**

#### 2.1 Classification of the substance or mixture

Product definition : Mixture

#### Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

Flam. Liq. 3, H226 Skin Irrit. 2, H315 Eye Irrit. 2, H319 STOT SE 3, H335 Aquatic Chronic 3, H412 The product is classified as hazardous according to Regulation (EC) 1272/2008 as amended.

See Section 16 for the full text of the H statements declared above.

See Section 11 for more detailed information on health effects and symptoms.

#### 2.2 Label elements

**AkzoNobel** 

### **SECTION 2: Hazards identification**

| Hazard pictograms   |   |
|---|---|
| Signal word   | : Warning   |
| Hazard statements   | <ul> <li>Flammable liquid and vapour.</li> <li>Causes serious eye irritation.</li> <li>Causes skin irritation.</li> <li>May cause respiratory irritation.</li> <li>Harmful to aquatic life with long lasting effects.</li> </ul>                                  |
| Precautionary statements  |   |
| Prevention  | : Wear protective gloves. Wear eye or face protection. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Use only outdoors or in a well-ventilated area. Avoid release to the environment.                           |
| Response  | : IF INHALED: Remove person to fresh air and keep comfortable for breathing. IF<br>ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with<br>water or shower. IF ON SKIN: Take off contaminated clothing and wash it before<br>reuse. |
| Storage   | : Keep cool.  |
| Disposal  | : Dispose of contents and container in accordance with all local, regional, national and international regulations.   |
| Hazardous ingredients   | : xylene<br>Solvent naphtha (petroleum), light arom.  |
| Supplemental label<br>elements  | :   |
|   | Wear appropriate respirator when ventilation is inadequate.   |
| Annex XVII - Restrictions<br>on the manufacture,<br>placing on the market and<br>use of certain dangerous<br>substances, mixtures and<br>articles | : Not applicable.   |

2.3 Other hazardsOther hazards which do: None known.not result in classification

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs or vPvBs or have been assigned a workplace exposure limit and hence require reporting in this section.

Type

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

[3] Substance meets the criteria for PBT according to Regulation (EC) No. 1907/2006, Annex XIII

[4] Substance meets the criteria for vPvB according to Regulation (EC) No. 1907/2006, Annex XIII

[5] Substance of equivalent concern

Occupational exposure limits, if available, are listed in Section 8.

|                               | Nota<br>(s) |
|-------------------------------|-------------|
| SECTION 4: First aid measures |             |

| 4.1 Description of first aid   | measures  |           |
|--------------------------------|---|-----------|
| General                        | <ul> <li>In all cases of doubt, or when symptoms persist, se<br/>anything by mouth to an unconscious person. If un<br/>position and seek medical advice.</li> </ul> | •         |
| Eye contact                    | : Remove contact lenses, irrigate copiously with clear<br>eyelids apart for at least 10 minutes and seek imm  |           |
| Inhalation                     | <ul> <li>Remove to fresh air. Keep person warm and at res<br/>irregular or if respiratory arrest occurs, provide arti-<br/>trained personnel.</li> </ul>            |           |
| Skin contact                   | : Remove contaminated clothing and shoes. Wash s water or use recognised skin cleanser. Do NOT us   |           |
| Date of issue/Date of revision | : 07/05/2017  | AkzoNobel |

| SECTION 4: First a             | id measures   |  |
|--------------------------------|---|--|
| Ingestion                      | : If swallowed, seek medical advice immediately and show the container or label.<br>Keep person warm and at rest. Do NOT induce vomiting.   |  |
| Protection of first-aiders     | No action shall be taken involving any personal risk or without suitable training. If is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. |  |
| 4.2 Most important sympto      | oms and effects, both acute and delayed   |  |
| Potential acute health eff     | ects  |  |
| Eye contact                    | : Causes serious eye irritation.  |  |
| Inhalation                     | : May cause respiratory irritation. Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.  |  |
| Skin contact                   | : Causes skin irritation.   |  |
| Ingestion                      | : Irritating to mouth, throat and stomach.  |  |
| <u>Over-exposure signs/sym</u> | nptoms  |  |
| Eye contact                    | : Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness  |  |
| Inhalation                     | : Adverse symptoms may include the following:<br>respiratory tract irritation<br>coughing<br>headache<br>drowsiness/fatigue<br>dizziness/vertigo<br>muscle weakness<br>unconsciousness  |  |
| Skin contact                   | : Adverse symptoms may include the following:<br>irritation<br>redness  |  |
| Ingestion                      | : No specific data.   |  |

#### 4.3 Indication of any immediate medical attention and special treatment needed

| Notes to physician  | : In case of inhalation of decomposition products in a fire, symptoms may be delayed.<br>The exposed person may need to be kept under medical surveillance for 48 hours. |
|---------------------|--|
| Specific treatments | : No specific treatment.   |

# SECTION 5: Firefighting measures

| 5.1 Extinguishing media<br>Suitable extinguishing<br>media | : Use dry chemical, CO <sub>2</sub> , water spray (fog) or foam.   |    |  |
|--|--|----|--|
| Unsuitable extinguishing media                             | : Do not use water jet.  |    |  |
| 5.2 Special hazards arising                                | rom the substance or mixture   |    |  |
| Hazards from the substance or mixture                      | Flammable liquid and vapour. In a fire or if heated, a pressure increase will occur<br>and the container may burst, with the risk of a subsequent explosion. Runoff to<br>sewer may create fire or explosion hazard. This material is harmful to aquatic life<br>with long lasting effects. Fire water contaminated with this material must be<br>contained and prevented from being discharged to any waterway, sewer or drain. |    |  |
| Hazardous thermal decomposition products                   | : Decomposition products may include the following materials:<br>carbon dioxide<br>carbon monoxide<br>nitrogen oxides<br>sulfur oxides<br>metal oxide/oxides   |    |  |
| Date of issue/Date of revision<br>Version : 3              | : 07/05/2017 AkzoNob   | el |  |

| 5.3 Advice for firefighters                       |   |
|---|---|
| Special protective actions for fire-fighters      | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.                                      |
| Special protective<br>equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents. |

# **SECTION 6: Accidental release measures**

| 6.1 Personal precautions, pro   | equipment and emergen   | cy procedures  |
|---------------------------------|---|--|
| For non-emergency<br>personnel  | : No action shall be taken involving any personal risk or without suitable training<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel fr<br>entering. Do not touch or walk through spilt material. Shut off all ignition source<br>No flares, smoking or flames in hazard area. Avoid breathing vapour or mist.<br>Provide adequate ventilation. Wear appropriate respirator when ventilation is<br>inadequate. Put on appropriate personal protective equipment. |  |
| For emergency responders        |   | d to deal with the spillage, take note of any able and unsuitable materials. See also the ncy personnel".  |
| 6.2 Environmental precautions   | ewers. Inform the relevar   | and runoff and contact with soil, waterways, drains<br>at authorities if the product has caused environmental<br>oil or air). Water polluting material. May be harmful<br>n large quantities.  |
| 6.3 Methods and material for    | nent and cleaning up  |  |
| Small spill                     | sion-proof equipment. Dil<br>atively, or if water-insolub   | containers from spill area. Use spark-proof tools and<br>ute with water and mop up if water-soluble.<br>le, absorb with an inert dry material and place in an<br>tainer. Dispose of via a licensed waste disposal  |
| Large spill                     | sion-proof equipment. Ap<br>rs, water courses, baseme<br>nt treatment plant or proc<br>ustible, absorbent materia<br>lace in container for dispo  | containers from spill area. Use spark-proof tools and<br>proach the release from upwind. Prevent entry into<br>ents or confined areas. Wash spillages into an<br>eed as follows. Contain and collect spillage with non-<br>al e.g. sand, earth, vermiculite or diatomaceous earth<br>sal according to local regulations. Dispose of via a<br>ctor. Contaminated absorbent material may pose the<br>ct. |
| 6.4 Reference to other sections |   | ontact information.<br>n appropriate personal protective equipment.<br>aste treatment information.   |

# **SECTION 7: Handling and storage**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 7.1 Precautions for safe handling

# **SECTION 7: Handling and storage**

| Protective measures                    | Put on appropriate personal protective equipment (see Section 8). Do not ingest.<br>Avoid contact with eyes, skin and clothing. Avoid breathing vapour or mist. Avoid<br>release to the environment. Use only with adequate ventilation. Wear appropriate<br>respirator when ventilation is inadequate. Do not enter storage areas and confined<br>spaces unless adequately ventilated. Keep in the original container or an approved<br>alternative made from a compatible material, kept tightly closed when not in use.<br>Store and use away from heat, sparks, open flame or any other ignition source. Use<br>explosion-proof electrical (ventilating, lighting and material handling) equipment.<br>Use only non-sparking tools. Take precautionary measures against electrostatic<br>discharges. Empty containers retain product residue and can be hazardous. Do not<br>reuse container. |
|--|---|
| Advice on general occupational hygiene | Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.   |

#### 7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Vapours are heavier than air and may spread along floors. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.

#### 7.3 Specific end use(s)

| Recommendations                      | : Not available. |
|--------------------------------------|------------------|
| Industrial sector specific solutions | : Not available. |

### **SECTION 8: Exposure controls/personal protection**

The information in this section contains generic advice and guidance. Information is provided based on typical anticipated uses of the product. Additional measures might be required for bulk handling or other uses that could significantly increase worker exposure or environmental releases.

#### 8.1 Control parameters

#### **Occupational exposure limits**

| Product/ingredient name                  | Exposure limit values  |  |  |

| SECTION 8: Exposure controls/personal protection |  |  |  |
|--|--|--|--|
|  | protection), potential body reactions to glove materials, as well as the instructions/<br>specifications provided by the glove supplier. Barrier creams may help to protect<br>the exposed areas of the skin but should not be applied once exposure has<br>occurred.  |  |  |
| Body protection                                  | : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. When there is a risk of ignition from static electricity, wear anti-static protective clothing. For the greatest protection from static discharges, clothing should include anti-static overalls, boots and gloves. Refer to European Standard EN 1149 for further information on material and design requirements and test methods. |  |  |
| Other skin protection                            | : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.  |  |  |
| Respiratory protection                           | : Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.  |  |  |
| Environmental exposure controls                  | : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.   |  |  |

**12.6 Other adverse effects** : No known significant effects or critical hazards.

## **SECTION 13: Disposal considerations**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 13.1 Waste treatment methods

| <u>Product</u>      |   |
|---------------------|---|
| Methods of disposal | <ul> <li>The generation of waste should be avoided or minimised wherever possible.<br/>Disposal of this product, solutions and any by-products should at all times comply<br/>with the requirements of environmental protection and waste disposal legislation<br/>and any regional local authority requirements.<br/>Dispose of surplus and non-recyclable products via a licensed waste disposal<br/>contractor. Waste should not be disposed of untreated to the sewer unless fully<br/>compliant with the requirements of all authorities with jurisdiction.</li> </ul> |
| Hazardous waste     | : The classification of the product may meet the criteria for a hazardous waste.  |

#### European waste catalogue (EWC)

| Code number         | Waste designation   |  |
|---------------------|---|--|
| EWC 08 01 11*       | waste paint and varnish containing organic solvents or other hazardous substances   |  |
| Packaging           |   |  |
| Methods of disposal | :   |  |
| Special precautions | : This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapour from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. |  |

IMDG Code Segregation : Not applicable. group

**14.6 Special precautions for : Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

| 14.7 Transport in bulk   | : Not available. |
|--------------------------|------------------|
| according to Annex II of |                  |
| Marpol and the IBC Code  |                  |

**SECTION 15: Regulatory information** 

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture <u>EU Regulation (EC) No. 1907/2006 (REACH)</u>

#### Annex XIV - List of substances subject to authorisation

#### Annex XIV

Substances of very high concern

None of the components are listed.

Annex XVII - Restrictions : Not applicable. on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles

#### **Other EU regulations**

**Europe inventory** : Not determined.

#### Special packaging requirements

Containers to be fitted : Not applicable. with child-resistant fastenings

:

07/05/2017

#### **SECTION 15: Regulatory information**

Ozone depleting substances (1005/2009/EU)

Not listed.

#### Prior Informed Consent (PIC) (649/2012/EU)

Not listed.

#### National regulations

- References
- : Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II and Regulation (EC) No. 1272/2008 (CLP)

**X**International.

**15.2 Chemical safety** : No Chemical Safety Assessment has been carried out.

assessment

#### Notice to reader

IMPORTANT NOTE: the information contained in this data sheet (as may be amended from time to time) is not intended to be exhaustive and is presented in good faith and believed to be correct as of the date on which it is prepared. It is the user's responsibility to verify that this data sheet is current prior to using the product to which it relates.

Persons using the information must make their own determinations as to the suitability of the relevant product for their purposes prior to use. Where those purposes are other than as specifically recommended in this safety data sheet, then the user uses the product at their own risk.

MANUFACTURER'S DISCLAIMER: the conditions, methods and factors affecting the handling, storage, application, use and disposal of the product are not under the control and knowledge of the manufacturer. Therefore the manufacturer does not assume responsibility for any adverse events which may occur in the handling, storage, application, use, misuse or disposal of the product and, so far as permitted by applicable law, the manufacturer expressly disclaims liability for any and all loss, damages and/or expenses arising out of or in any way connected to the storage, handling, use or disposal of the product. Safe handling, storage, use and disposal are the responsibility of the users. Users must comply with all applicable health and safety laws.

Unless we have agreed to the contrary, all products are supplied by us subject to our standard terms and conditions of business, which include limitations of liability. Please make sure to refer to these and / or the relevant agreement which you have with AkzoNobel (or its affiliate, as the case may be). © AkzoNobel
